

TypeScript Language

Two type of language

- Strongly typed
- loosely typed

file extension

.ts

Compile the ts file to js file

tsc -b

Initialize an empty Node.js project with typescript

```
mkdir node-app  
cd node-app  
npm init -y  
npx tsc --init
```

function

```
function done(value:string){  
    console.log(value)  
}  
done("vakhe")
```

how to write explicit code in function ki kya return hoga iss function se

```
function sum(a:number , b:number):nummber{  
    return a+b  
}  
  
sum(2,3)
```
